

Virtual Exam Proctoring Tech Specs

Computers with operating system:

- Windows 7—Windows 10
- MacOS 10.14 (Mojave) – 11 (Big Sur)

[Test Your System »](#)

Equipment Required for Virtually Proctored Exams:

- Exam must be taken on a desktop or laptop computer with either operating system noted above
 - NO mobile devices may be used to take the exam
- Reliable WIFI or Internet connection
- Working Microphone, Speakers, and Camera
- We recommend using Google Chrome for the best experience in our Virtual Exam Proctoring.

Note to Students*

Many computers are equipped with a Webcam and Microphone. If yours is not, you will need to acquire these items before your scheduled proctored exam.

Students are not permitted to use mobile devices for their virtually proctored exam.

Bandwidth:

- 500kbps per each video feed
- 500kbps for screen sharing
- Internet connection 1 Mbps or better: broadband recommended

**Minimum requirements depend on the number of video feeds.*
